

## Welcome?

Soil is everywhere. It is part of the earth we live on and managing it is a vital part of our everyday existence. Today's emphasis on the cleanliness of a building for personal health makes soil management even more important. 85% of all soil entering a facility is brought in on the feet of the occupants. Of this, at least, 80% is dry soil which can range from large particles to powder-like dust and the rest is oily. **Waterhog Eco Premier** entrance mats stop soil and water at the door, store soil and water for removal, minimize tracking of soil and water and most importantly, provide a safe, slip resistant surface to walk on.

**Waterhog Eco Premier** entrance mats from **Applifast** are manufactured with an exclusive rubber-reinforced face pattern which prevents pile from crushing, maintains high performance, extends product life and appearance retention. An exclusive **Waterhog Eco Premier** "water dam" border and unique bi-level construction effectively traps dirt and water in the mat and off the floor, minimizing slip hazards, floor damage and maintenance costs. **Waterhog Eco Premier** rubber backing resists curling and cracking which is ideal for indoor and/or outdoor applications.

FURNISH STUNNING, CLEAN AND SAFE DOORWAYS WITH WATERHOG ECO PREMIER ENTRANCE MATS FROM APPLIFAST.

100% post-consumer P.E.T. fabric from recycled drink bottles dries quickly and won't fade or rot.

Rubber reinforced face pattern

"Water dam"  
SBR rubber backing  
(15% - 20% recycled rubber from tires)

3/8" Pile Height  
30 oz/sq yard face weight

### STANDARD SIZES:

3' x 5', 4' x 6', 6' x 8'

### OPTIONS:

**COLORS:**

- Black Smoke
- Grey Ash
- Maroon
