HUCK

®

Saves Time

INSTALLATION TIMES

1/2 BOBTAIL®
minute each
(or less)

x 400
per unit =

3.3 HOURS
to install
1 unit

1 STANDARD
NUT & BOLT
minute each

6.7 HOURS
to install
1 unit

RESULTS

3.4 BOBTAIL
SAVES
hours
per unit

x 100
units in
the farm =

340 HOURS
totally
saved

What to do
with the
**EXTRA
TIME?**

A) Build more towers

B) Produce power sooner

Value of Producing Power Sooner

2.5MWH average output per tower

100 unit farm = **250MWH** total output

Convert to KWH: 250MWH x 10 = 2500KWH

340 extra hours x 2500KWH = **850,000**KWH

Average sale price in US: **\$0.12** per KWH

\$102,000 extra output revenue

Maintenance-Free

RE-TIGHTENING PER YEAR

0 HUCK
BOBTAIL®

VS

1 STANDARD
NUT & BOLT

x 6.7 HOURS
per unit

667 HOURS
per farm

Value of Maintenance-Free Operation

for a 100 Unit Farm (1 year)

BobTail re-tightening per year = **0**

Saves up to **667 hours**

667 hours x 2500_{KWH} = **1,668,000** extra KWH

Average sale price in US: **\$0.12** per KWH

\$200,100 extra output revenue
or power an extra **152** US Households

Bottom Line

**HUCK
BOBTAIL®** = **MORE
POWER**
