EABS

COMPACTNESS

EABS IS A CONCENTRATION OF ADVANCED TECHNOLOGY which allows to get a compactness never reached up to now with transducerized battery tools.

With a length at 30 cm, EABS can be used with only one hand. Consequently, one hand is released and could be used either to boost productivity or to improve operator's balance during tightening.

HIGH SPEED BATTERY TOOLS WITH 18V BATTERY

EABS IS A PERFECT BALANCE BETWEEN ERGONOMICS AND PRODUCTIVITY

EABS can reach really high speed to boost your productivity even with an 18V battery. Indeed, with an EABS 8 model and an EABS 12 model, free speed values are higher than 1000 rpm while preserving ergonomy with a total weight less than 1.5 kg.

LED REPORTING

FRONT LED

Front LED is really close to the tightening part for a **perfect lighting**.

REPORTING LED

The combination of front LED with the reporting LED's on the side ensure the feed-back to the operator is always visible. With no extra effort to view.
