Precision Programmable Tools

- ✓ **OK/NOK Indicator**
- ✓ **Brushless Motor**
- ✓ **High Efficiency**
- ✓ **Simple Programming**
- ✓ **Low Maintenance Cost**
- ✓ **Cost Effective**

- ✓ **Excellent ergonomics, lightweight and compact design**
- ✓ **Maximum functionality operating concept**
- ✓ **Torque range from 0.5 Nm to 60 Nm**
- ✓ **Continuously adjustable speed**
- ✓ **Utmost process reliability**
- ✓ **Up to 7 configured steps**
- ✓ **Process-capable according to ISO5393, VDI/VDE 2647, cmk value >1.67 at ± 10% (Based on 6 Sigma)**

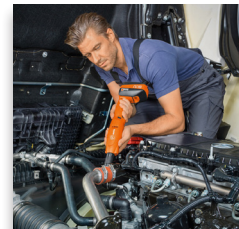

Cordless torque tools with mechanical shut-off clutch for accurate targeted torque.

FEIN AccuTec screwdrivers are specifically designed for the tough requirements of industrial volume production. They offer very high repeat accuracy, maximum precision and enormous flexibility. Continuously adjustable over a wide torque range, they can handle a wide range of different screwdriving applications.
